

PLEASE STOP SINCLAIR BROADCASTING FROM
PRACTISING PARTISAN POLITICS AND POLICIES

The United States of America is moving towards an oligarchy ("a political system governed by a few people"); more specifically a rich and powerful oligarchy.

Owners of GIANT media conglomerates are among those oligarchs.

I have always thought of our airways as belonging to the public and devoted to community issues as well as diverse and balanced (NOT in the Fox News sense of "balanced") national and international topics.

More and more, the voice and opinion of these giant media conglomerates (and their owners) are having a disproportionate and partisan effect on US politics.

I am very upset by Sinclair Broadcasting's decision to pre-empt their previously scheduled program to air an anti-Kerry documentary right before the election. I am NOT satisfied with their invitation to John Kerry to join the program. They will have the power to edit his comments in a dubious way.

If they must air that documentary, they should also air a pro-Kerry documentary in its entirety or perhaps an anti-Bush documentary.

Sincerely,
Martha Henry
